DSTA – Sample Portfolio

Data Solutions for Smarter Business

We help small businesses turn messy data into clear reports, dashboards, and efficient processes.

ABOUT US

DSTA helps businesses save time, improve data accuracy, and make better decisions by transforming messy data into meaningful reports, dashboards, and automated processes. We also provide reliable back-office operations support and dedicated resources tailored to business needs.

SERVICES

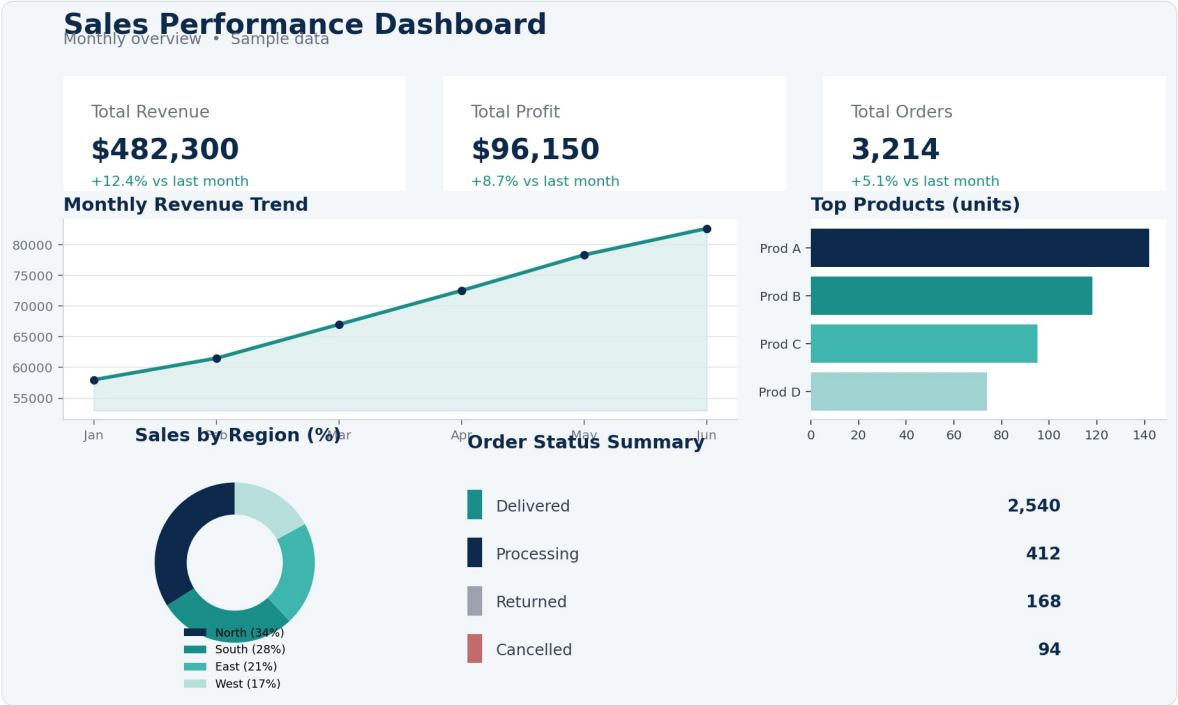

- Excel Dashboards
- Business Reports
- Data Cleaning & Validation
- Back-office Operations Support
- SOP Documentation
- AI-assisted Reporting

WHY CHOOSE DSTA?

- ✓ Business-first approach
- ✓ Secure handling of client data
- ✓ AI-assisted productivity with human validation
- ✓ Customized dashboards and reports
- ✓ Transparent communication

SAMPLE PROJECT: SALES DASHBOARD

- Cleaned 5,000+ rows of messy sales data.
- Created KPI cards for Revenue, Profit, and Orders.
- Identified top-performing products and monthly sales trends.

BUSINESS IMPACT

- ✓ Reduced manual reporting effort
- ✓ Improved visibility into sales trends
- ✓ Enabled faster business decisions

SAMPLE PROJECT: HR EMPLOYEE DASHBOARD

- Consolidated employee records across departments, cities, and status categories.
- Built interactive filters for Department, City, Status, and Gender.
- Visualized headcount, salary, performance, and gender distribution in one view.

BUSINESS IMPACT

- ✓ Faster access to workforce insights
- ✓ Simplified HR reporting across locations
- ✓ Improved tracking of performance and attrition risk

PROCESS

Understand Requirements → **Receive Data Securely** → **Clean & Validate** → **Analyze** → **Review** → **Deliver**
